INDEX

VOL. XXI, 1927-28

Note.—In this volume two series of numbers are used for pagination, one being the sectional page number and the other the volume page number. The latter only is used in the Index. It is hoped that this change will help readers when using the bound volumes.

- Abdomen**, right iliac fossa, emptiness of, in congenital mesenteric malformation in children, 1719
- Abdominal carcinoma**, with vulvo-vaginal metastases (C. White), 1732-1733
- conditions, acute, differential diagnosis from coronary infarction, 726, 727, 735
- Abiotrophy**, atypical (?), case for diagnosis, 1519
- Abnormalities and idiosyncrasies**, definition of, 1211
- Aboriginal woman**, Australian, difficult labour in, partly due to large size of child (J. B. Dawson, J. B. Cleland, A. A. Wallace and C. Hackett), 828
- Abrahams, A.**—Primary arterial fibrosis, 274
- two cases of familial acholuric jaundice in brothers, 1420
- Abcess**, acute, left lumbar, caused by carcinoma coli (E. T. C. Milligan), 1442
- Abcesses** outside urinary tract, as cause of pyuria, 512
- subcutaneous, multiple (W. J. O'Donovan), 1320
- Acanthosis nigricans** (M. S. Thomson), 1174
- Acapnia** in shock, 601
- Acetabulum**, fracture-dislocation of (Paul B. Roth), 239
- Achalasia** and degeneration of Auerbach's plexus (A. T. Rake), 1775
- of cardia after treatment by Hurst's mercury tubes, case of (H. Tilley), 293, 1575
- Achlorhydria**, gastric, in woman who was under observation over nineteen years ago for grave anæmia (F. Parkes Weber), 80
- Acholuric jaundice**, familial, in brothers, two cases of (A. Abrahams), 1420
- Achondroplasia**, atypical case of (E. Pritchard), 776
- in third generation (D. Hunter), 1321
- Achylia gastrica**, Marie's spondylitis deformans with (Sibyl R. Eastwood), 90
- Achylia**, relation of naso-oval sepsis to, 964
- Acidosis**, attacks simulating chronic appendicitis in children, 1120
- Acne** necrotica, case of (E. G. G. Little), 674
- Acrocyanosis**, diathermy in treatment of, 1679
- Acrodermatitis perstans**, two cases of (A. C. Roxburgh), 181
- Acromegaly** with unilateral paresis of sixth and seventh cranial nerves (C. Worster-Drought), 272
- Actinomycosis** type of mycetoma, treatment of (J. B. Christopherson), 471-474
- Adam, J.**—Discussion on otosclerosis, 1911
- Adams, P. E. H.**—Two cases of congenital cataract with spontaneous absorption of lens, 413
- Adams, W. Stirk.**—Discussion on sinusitis in ætiology of mental disorder, 1280
- Addison, O. L.**—Discussion on treatment of pyuria in children, 523
- Tuberculous osteitis of skull, 782
- Addison's disease** (A. G. Phear), 1167
- Adeno-carcinoma** of sweat gland, microscopical section showing (J. H. T. Davies), 1178
- Adenoids**, mass of, resembling choanal polyp (R. S. Stevenson), 1030
- Adenoma**, pedunculated, of sigmoid, method of removal through the rectum (Sir C. Gordon-Watson), 1440
- sebaceous (W. J. O'Donovan), 1177
- villous, of rectum, specimen of (L. C. Norbury), 1441
- Adenomata** of mucous glands (W. N. Goldsmith), 687
- Adie, W. J.**—Discussion on ocular complications of encephalitis lethargica, 993
- Agmatine**, action and toxicity of, 527
- Aitken, D. McCrae.**—Two cases of unusual congenital deformities, 889
- Albuminuria** in successive pregnancies, frequency of, 833

- Albuminuria** occurring during pregnancy, results of, with special reference to relationship between pregnancy kidney and chronic nephritis (G. F. Gibberd), 831-842
of pregnancy, clinical observations in remote prognosis of, 840
functional, dangers associated with, diagnosis of, 842
indications for inducing labour to avoid permanent renal damage, 841
late results in forty-four cases, analysis of, 837
place of biochemistry in differentiation of cases, 840
prevention of eclampsia in, 839
prognosis for foetus in, 842
termination of pregnancy to avoid permanent renal damage, 839
patients under treatment for, incidence of eclampsia in, 839
pregnancy associated with, second pregnancy after, analysis of twenty-eight cases, 836
recurrent, in pregnancy, significance of, 833
- Alcohol**, dulling processes of, 1343
effects produced by, 1342
injection of, for neuralgia, and its sequel (W. H. Rushton), 1624
psycho-motor stimulation caused by, 1342
- Alcoholic psychosis**, comparison of pre war and post-war figures, 1349
- Alcoholism**, ætiology of, discussion on, 1341-1360
general psycho-pathological aspects in, 1351
inter-relations of alcoholic states, 1355
social aspects in, 1352
systematic psycho-pathology in, 1353
and prostitution, association of, 1359
craving in, 1334
definition of, 1341
exciting causes in, 1344
heredity in, 1344-1345
in relation to neuroses in the tropics, 1671
production of euphoria by, 1342, 1347
psychological factors in, 1342, 1343
treatment of, by hypnosis, 576
- Alexander, Sir Sidney**.—Discussion on treatment of varicose ulcers by intravenous injections, 1829
- Alimentary infections**, relationship of temperature to, 1191
- Alkalis** and hexamine, treatment of coliform infections of urinary tract with, reaction of urine in relation to (D. C. Hare, E. H. Lepper and M. Martland), 508-511
- Allen, J. M.**—Bilateral sixth nerve paralysis in child, 1518
Motor abnormality in child. Case for diagnosis, 1516
- Allergy**, idiosyncrasies due to, 1212
- Altounyan, E. H. R.**—Case of congenital absence of upper end of femur, 883
- Amenorrhœa** in diabetes in women, 378
- Amnesia**, in relation to hypnosis, 576, 577
- Amœbic dysentery**, sigmoidoscopic appearance of, 898
- Anabolic group** of ductless glands, function of, 330
- Anæmia**, aplastic, further contribution to subject of (J. P. McGowan), 1581-1590
congenital, with jaundice (H. C. Gregory), 1730
- Anæmia**, pernicious, cases of, liver treatment (Sir P. Hartley) (H. Morley Fletcher and P. R. Fraser), 323, 324, 328
secondary, treated with liver diet (A. G. Maitland Jones) 1325
in purpura, 1110
- Anæsthesia** in labour, intermittent chloroform, 1134, 1136, 1139
intermittent gas and oxygen, 1135, 1136, 1138
nitrous oxide, 1137
in obstetrics, discussion on, 1133-1141
method in common use, 1134
special requirements of, 1133
in obstetrical operations, 1133, 1138
value of stovaine—spinal anæsthesia in Cæsarean section, 1133, 1138
in relation to shock, 1615
in thyroid surgery (T. P. Dunhill), 345-350, 352
chloroform, 346
difficulties and dangers in, 345
ether, 347
local anæsthesia, 348
nitrous oxide gas and oxygen, 348
types of goitre in relation to, 348-350
local, in thyroid surgery, 348
sudden development of tabes dorsalis with (R. Timberg), 280
or analgesia in stages of labour, requirements of, 1134
synergistic methods of, in obstetrics, 1136, 1140
surgical, position of eyes during, 102
- Anæsthetics**, deaths under, medico-legal aspects of (A. D. Cowburn), 765-767
preliminary inquiry in, 767, 768
- Analgesia** in dentistry, apparatus for, 284
spinal, chief drugs used in, 189
present position of (C. Hughes), 189-193
- Anaphylactoid purpura**, 1045
- Aneurysms**, multiple, and thromboses (Sir T. Horder), 327
- Angina pectoris**, cardiac infarction in relation to, 724
diathermy in treatment of, 1679, 1682
- Angioapastic conditions**, diathermy in treatment of, 1682
- Aniridia** with dislocated lens (A. H. Thompson), 1235
- Anterior chamber**, tumour of, with recurrent hyphæma (G. W. Kendall), 816
- Antiperistalsis** and pyloric regurgitation, movements of duodenal contents with special reference to (R. W. A. Salmond), 1361-1364
- Antiseptics**, physiological and chemical, comparison of, 865, 866
- Antral disease** in children associated with bronchiectasis, frequency of, 1569
- Anus**, congenital absence of, two cases of (J. P. Lockhart-Mummery), 77
growth in, case for diagnosis (P. Maynard Heath), 1444
X-ray burn of, treated by excision and plastic surgery (J. P. Lockhart-Mummery), 758
- Anxiety neurosis** in Europeans in the tropics, 1670, 1671
- Aorta**, coarctation of, case of (D. Hunter), 432
- Aphasia**, attacks of, and auditory hallucinations, epileptiform convulsions associated with (W. Russell Brain), 168

- Apical granuloma**, bacteriology of, 801, 803
microscopical appearances of, 808-814
infection (A. Bulleid), 801-814
classification of, 801
pathology of, 802
X-ray appearances in, 802
osteitis, 801
- Apicectomy**, 1479, 1485, 1494
- Aplastic anaemia**, further contribution to subject of (J. P. McGowan), 1581-1590
- Appendicitis**, chronic, in children. Cases following acute attacks, 1122
cases of visceroproposis, 1123
cases with enlarged mesenteric glands, 1122
clinical picture in, 1119
conditions simulating, 1120
discussion on, 1119-1132
threadworms in, 1123
three symptom-complexes distinct from inflammation, 1129
familial susceptibility to, 1125, 1126
- Appendicular disease** and ruptured ovarian cyst, pseudomyxoma peritonei associated with (J. S. Fairbairn and T. H. Sims), 372-376
- Archer**, B. W. Crowhurst, and **Worster-Drought**, C.—Case of dyspituitarism, 1513
Fröhlich type of dyspituitarism with extreme genital dystrophy, 772
- Arm**, involuntary movements of (?) psychoneurosis, case of (J. D. Slight), 1854
one, involuntary movements of progressive muscular atrophy with (F. M. R. Walshe), 553
- Armstrong**, R. R., and **Burt-White**, H.—Contribution to problem of puerperal sepsis, 542-548
- Armstrong-Jones**, Sir Robert.—Discussion on neuroses in the tropics, 1676
- Army**, aural disease in, effects on home service, service abroad, and in war time, 1464, 1465
recruits for, aural standard required of, 1463
rejection rate for aural disease, 1463
- Arterial fibrosis**, primary (A. Abrahams), 274
hyperemia, constitutional, symptoms and treatment of, 1680, 1681
sympathectomy, chronic stagnatory erythema of legs treated by (S. E. Dore), 1178
- Arterio-sclerosis**, erythromelalgia secondary to (D. C. Hare), 271
in relation to cardiac infarction, 724, 728
with osteo-arthritis changes in knee-joints: long-standing tumour of left shoulder (B. T. Parsons-Smith), 745
- Artery**, left subclavian, occlusion of (C. E. Lakin), 1167
pulmonary, aneurysmal dilatation of, in congenital heart disease (D. Evan Bedford), 441
primary sclerosis of, case of (D. Evan Bedford), 444
- Arthritis** and neuritis, chronic, value of biliary tract drainage in, 149
multiple, with enlargement of liver and spleen (H. Thursfield), 567
tuberculous, of shoulder-joint (C. P. G. Wakeley), 436
- Arthrodesis** (W. R. Bristow), 111-113
indications and contra-indications, 111
methods of, 112
- Ascites**, chronic, from hepatic cirrhosis, result of omentopexy in man with (F. Parkes Weber), 84
intense, (?) hepatic syphilis, case of (A. V. Clarke), 1851
- Asherson**, N., and **Peters**, E. A.—Fibro-sarcomata of nose treated by radium, 666
- Asthma**, relation of naso-oral sepsis to, 955, 961
unusual case of (R. Cove-Smith), 564
value of biliary tract drainage in, 148
- Ataxia**, cerebellar (C. T. Potter), 1507
- Atelosaccharomyces bussebuschki*, 456
rudeli, 456
- Atheroma**, coronary, in cardiac infarction, 725, 731
- Atheto-chorea** of Huntington's type: (?) post-encephalitic (C. Worster-Drought), 166
- Atropine**, action of, in the eye, 1505
- Attic cholesteatoma** with vertigo, case of: ossiclectomy: relief (Sir J. Dundas-Grant), 392
- Auden**, G. A.—The Guild of Barber Surgeons of the City of York, 1400-1406
- Audiographs**, 872, 873, 874
types of deafness, illustrated by, 1908, 1909
- Audiometer**, Tucker's, method of testing Paracusis Willisii with, 611
- Auditory meatus**, external, left, squamous-celled carcinoma of (T. B. Jobson), 393
- Auerbach's plexus**, achalasia and degeneration of (A. T. Rake), 1775
- Aural vertigo**, severe, treated by superior and inferior vestibulotomy (E. D. D. Davis), 1762
- Auricle**, supernumerary, of left side, and congenital malformation of right cheek (H. N. Barnett), 875
- Australian** Aboriginal woman, pure-blood, difficult labour in, partly due to large size of child (J. B. Dawson, J. B. Cleland, A. A. Wallace, and C. Hackett), 828
- Auto-suggestion** in psycho-therapy, objections to term, 578
theories of, 577, 578, 580
- Avian** morbid conditions, pathology of, compared with that of analogous diseases in mammals (H. P. Bayon), 1085-1089
hæmo-spirochaetosis, 1085
fowl-leucocythæmia and erythromyelosis, 1086
fowl-pox virus and its lesions, 1086
fowl sarcomata and similar avian tumours, 1087
- Baboon** (*Papio sphinx*), malaria infection of (J. W. S. Macfie), 467-471
- Bacillary** dysentery, sigmoidoscope appearances of, 900
- Bacillus coli* infection, pyelitis due to, 505
fusiformis infection of periodontal membrane, 139
mucosus capsulatus, sphenoidal sinusitis due to, case of (H. Kisch), 297
- Bacteria**, action of lysozyme on, 1497
- Bacterial** infection, relation of lysozyme to, 1499
- Bactericidal** power of human blood and some methods of altering it (A. Fleming), 859-866
- Bacteriology** of apical infection, 801, 803
of mastoiditis, 1754

- Bacteriology** of naso-oral mucosa, 969
- Balfour, A., C. B.**—Discussion on life assurance in the tropics, 1102
- Health lessons from Bermuda, 1445-1451
- Balneological** procedures, various, physiological rationale of, 587
- Banister, J. Bright.**—Case of ovarian pregnancy, 1528
- Bankert, Sir Reginald, K.C.V.O.**—Note on a very rare journal, 1020
- Banks, H. Stanley.**—Intensive method of serum treatment of diphtheria, 1849
- Banks-Davis, H. J.**—Case of gunshot-wound causing complete deafness of right ear, 876
- different types of mastoid processes in same individual, 877
- loss of function in left internal ear and labyrinth caused by war injury, 876
- Barber, H. W.**—Benign lymphogranuloma (Schaumann), case previously shown on two occasions, apparent cure, 680
- case for diagnosis, "tertiary yaws," 677
- of sarcoid, effect of krysoilgan treatment, gradual absorption of sarcoid nodules with development of prurigo (twice previously shown), 671
- of streptothrix infection (previously shown), 1708
- lichen planus, previously shown as confluent lichen nitidus, 180
- morphea, with root distribution, 1707
- neurofibromatosis (von Recklinghausen's disease) in a woman; three children affected with "Forme Fruste" of the disease, 676
- two cases of folliculitis ulerythematosa reticulata (MacKee and Parounagian), combined with lichen spinulosus, epidermal cysts, and folliculitis decalvans, 176
- of nodular lupus erythematosus, 678
- of sarcoid, 1176
- Barber Surgeons of the City of York, Gild of (G. A. Auden), 1400-1406**
- Barclay, A. E.**—Discussion on pitfalls in radiology, 923-925
- Barclay, W. B.**—Discussion on value of marine health resorts, 1152
- Barnard, W. G.**—Recurrence of leiomyosarcoma of uterus in cervical stump, 538
- Removal of endothelioma of ovary, with recurrence in vagina thirteen years later, and near cervix twenty-four years later, 537-538
- Barnes, G. B.**—Extrinsic carcinoma of larynx, treated with diathermy and X-rays, 1802
- Barnett, H. Norman.**—Case of double acute mastoiditis, the post-operative symptoms of which simulated lateral sinus thrombosis, 1927
- supernumerary auricle of left side, and congenital malformations of right cheek, 875
- Discussion on posterior (mastoid) drainage in acute suppuration of middle ear, 621
- Elderly man, with growth on hard palate and great enlargement of glands, 300
- Barrington-Ward, L. E.**—Discussion on chronic appendicitis in children, 1127
- Barton, J. Kingston.**—Discussion on bone changes in renal infantilism, 721
- Barton, J. Kingston.**—Discussion on deep X-ray and radium therapy, in relation to mouth and upper respiratory tract, 664
- on pathology and treatment of shock, 1617
- Bathurst, L. W.**—Treatment of incontinence of urine in women by electro-therapeutic means, 1365-1368
- Batten, G. B.**—Discussion on diathermy in relation to circulatory disturbance, especially high blood-pressure, 1684
- Bauwens, P.**—Discussion on diathermy in relation to circulatory disturbance, especially high blood-pressure, 1684
- Baylis, H. Paxton.**—Case of necrosis of mandible, 1619
- Bayon, H. P.**—Discussion on aplastic anaemia, 1591
- pathology of certain avian morbid conditions compared with that of analogous diseases in mammals, 1085-1089
- Beckett-Overy, H.**—Discussion on anaesthesia in labour, 1139
- on treatment of varicose ulcers by intravenous injections, 1836
- Bedford, D. Evan.**—Aneurysmal dilatation of pulmonary artery in case of congenital heart disease, 441
- case of primary sclerosis of pulmonary artery, 444
- discussion on cardiac infarction, 725-727
- tuberculous pericarditis, 1162
- Bennett, T. Izod.**—Discussion on cholecystitis and gall tract disease, 155
- on influence of naso-oral sepsis on lungs and gastro-intestinal tract, 963-966
- Bermuda.** absence of ankylostomiasis from, 1445
- malaria and anophelines from, 1445
- antityphoid vaccination in, 1450
- disappearance of chigger flea from, 1445
- dysentery in, rarity of, 1449
- health lessons from (A. Balfour), 1445-1451
- infantile mortality rate in, 1450
- prevalence of flies in, 1449
- tuberculosis in, 1450
- yellow fever in, history of, 1446
- Berry, Lady.**—Discussion on anaesthesia in thyroid surgery, 351
- Berry, Sir James.**—Discussion on anaesthesia in thyroid surgery, 350
- Bertwistle, A. P.**—Discussion on treatment of urethral stricture and fistulae by excision, 1652
- Biceps** brachii, rupture of (A. Rocyn Jones), 231
- Bilharzia** hematobia of rectum (J. P. Lockhart-Mummery), 1441
- Bilharziasis**, intestinal, sigmoidoscopic appearances of, 902
- Biliary** drainage, duodenal, résumé of diagnostic and therapeutic value of, with reference to nature, diagnosis and management of cholecystitis and gall-tract disease (B. B. Vincent Lyon), 147-153
- tract drainage, dietetic regimen with, 152
- Binoscope** for exercising heterophoria and squint cases (K. R. Smith), 700-704
- Biochemistry**, applied, development of, in relation to progress of endocrinology, 340, 343
- Birds and mammals**, hæmo-spirochaetosis in, comparison of, 1085, 1086

- Birmingham**, diphtheria in, cases and deaths (1901-1926), 201
scarlet fever in (1901-1926), cases and mortality rates, 202
- Bladder**, calculus of, differentiation from simple pyelitis, 503
carcinoma of, radium treatment of (A. C. Morson), 1655-1663
technique of, 1656, 1657
dilated, pyuria in children associated with, 514
extroversion of, following suprapubic prostatectomy (R. H. J. Swan), 907
foreign bodies in, as cause of pyuria, 515
petechie of, in purpura, 1106
purpura of, cytoscopic appearance of, 1111
differential diagnosis of, 1113
with painful hæmaturia, 1106
- Blaise**, Saint. The Patron Saint of Laryngology (Jobson Horne), 1021, 1022
- Blake**, J. C.—Schultze-Charlton reaction in diagnosis of scarlet fever, and Schick test for susceptibility to diphtheria, 394
- Blastomyces dermatitis**, 451
- Blastomycetoid** type of yeast-like fungi, 447
- Blastomycoides dermatitidis**, differential culture characters of, 451
microscopical appearance of, 452
(genus) Castellani, 451
immitis, 456
differential culture characters of, 451
tulaneensis, differential culture characters of, 451
microscopical appearance of, 452
- Blastomycosis**, 1294
(cryptococcosis) epidermica, 460
cutis, principal clinical types of, 448
verrucosa, etiology of, 450
(Gilchrist type), 448
notes on: its etiology and clinical varieties (A. Castellani), 447-462
verrucosa, 448
illustrative cases, 449
ulcerativa profunda seu mutilans, 455
coccidioides, 455
purulenta profunda, 456
glutealis, 456
See also under *Yeast-like fungi*
- Bleeding** time test in hæmorrhagic purpuras, 1037
- Blinking**, movement of, control of, 101
purpose of, 101
- Blomfield**, J.—Discussion on anaesthesia in labour, 1136
- Blood**, bactericidal power of, effect of light on, 862
methods of altering, 860
chemical, 862
drugs which act indirectly as antiseptics by action on bacteria so that the leucocytes can effect their destruction, 864
effect of light, 862
increasing efficiency of leucocytes, 862
increasing number of leucocytes, 861
increasing opsonic power of serum, 861
introduction of chemicals which increase bactericidal power of blood, 865
introduction of drugs intended to act directly as antiseptics, 862
methods of investigating, 860
normal, 860
on staphylococci, influence of number of leucocytes on, 861
- Blood-clot** method in treatment of dental cyst (D. McKenzie), 1024
- Blood**, clotting time of, in relation to spontaneous epistaxis, 1784
coagulation time of, in hæmorrhagic purpuras, 1035
count in case of erythro-leukæmia, 743
in case of leukæmic erythrodermia, 1171, 1172
deficiency in volume of, in shock, 602
examination of in diagnosis of purpura, 1113
human, bactericidal power of, and some methods of altering it (A. Fleming), 859-866
leucocytes in, methods for increasing, 861
methods of increasing efficiency of, 862
- Blood-plasma** and synovial fluid, relationship between, 585
- Blood-platelets** and spleen in ætiology of purpura, 1114
diminution in number of in purpura, 1110
effects of splenectomy on, 1047, 1048
normal functions of, 1034
number of, relation to bleeding time, in hæmorrhagic purpuras, 1037
variation in number of, in hæmorrhagic purpuras, 1039
- Blood-pressure**, fall of, in spinal analgesia, 190
high, diathermy in relation to, discussion on, 1677-1684
high, with thrombosis of a retinal arteriole (F. Parkes Weber), 1158
in shock, 603
low, in purpura, 1110
- Blood**, red cells of, stippling of, in malaria (J. C. Thomson), 464-467
serum of, methods of increasing opsonic power of, 861
- Blood-sugar**, action of synthalin on, 529
- Blood**, transfusion of, in treatment of hæmorrhagic purpuras, 1050
- Blue** sclerotics and osteopathsyrosis, otosclerosis with, 1901
- Bodily** idiosyncrasies, 1212
- Bone**, cavities in (E. P. Brockman), 238
changes in renal infantilism, radiological study of (C. G. Teall), 718-721
cystic appearances in (J. Magnus Redding), 1867
growth of, endocrine system in relation to, 307
heterotopic formation of, 302
injuries, pitfalls in radiology and, 936
invasion of, by periosteal sarcoma (J. Taylor), 1865
marrow in mastoid process, changes in inflammation, 1748
removal of, by osteoclasts, in mastoiditis, 1750
in mastoiditis, 1750
true, formation of, in laparotomy wounds, 301
tumours of, limitations of radiography in diagnosis of, 940
- Bones**, long, anatomy and blood-supply of, 1378
- Borna** disease in horses, histology of, 707, 713
- Boyd**, R. H.—Supraclavicular lesion of whole brachial plexus, 225
- Boyle**, H. E.—Discussion on anaesthesia in labour, 1138
on late ether convulsions, 1705
- Brachial** plexus, whole, supraclavicular lesion of (R. H. Boyd), 225
- Brachialis** anticus, traumatic bone formation in, 303, 304

- Bradley, O. Charnock.**—What is comparative medicine? 129-132
- Brailsford, J. F.**—Discussion on spinal injuries, 647
on the pulpless tooth, 1485-1490
- Brain, abscess of (H. Cairns), 1329**
of frontal lobe, post-mortem findings in case previously shown (E. O'Flynn and D. W. Winnicott), 1256
